

UNISAGE FINAL COLOR SYSTEM (LOCKED)

1. Base Layers (DO NOT CHANGE)

Role	Color	Usage
Background	#0A0F1C	App base
Surface 1	#111827	Cards, sections
Surface 2	#1A2333	Elevated cards
Surface 3	#243041	Modals, overlays
Border	#1F2937	Dividers, outlines

👉 Rule: No gradients. No random dark shades.

2. Primary Brand System (Teal)

Role	Color	Usage
Primary	#00C2A8	CTA, key highlights
Hover / Active	#00F5D4	Hover, focus
Pressed	#00A896	Button press
Muted	#008F7A	Disabled accent
Glow	rgba(0, 194, 168, 0.25)	Focus ring, highlights

👉 Rule:

Primary color = **rare usage** → only where action is needed.

3. Text System (STRICT)

Role	Color	Usage
Primary Text	#E6EDF3	Headings, main text

Role	Color	Usage
Secondary Text	#9AA4B2	Subtext
Muted Text	#6B7280	Labels
Disabled Text	#4B5563	Inactive

👉 Never use pure white. Never use random grey.

4. Status System (MANDATORY)

Type	Color	Background
Error	#FF4D4F	rgba(255,77,79,0.1)
Success	#22C55E	rgba(34,197,94,0.1)
Warning	#F59E0B	rgba(245,158,11,0.1)
Info (optional)	#3B82F6	rgba(59,130,246,0.1)

👉 Without this → UI feels incomplete.

5. Depth System (NO SHADOW DEPENDENCE)

Use layers instead of heavy shadows:

- Flat UI preferred
- Minimal shadow only for modals

Element	Style
Cards	Surface 1
Elevated	Surface 2
Modal	Surface 3

6. Effects & Interaction

Element	Value
Focus Ring	0 0 0 2px rgba(0,194,168,0.4)
Glow	rgba(0,245,212,0.15)

Element	Value
Shadow	0 4px 20px rgba(0,0,0,0.4)

👉 Keep effects subtle. No neon overkill.

🕒 7. Component Rules (CRITICAL)

Buttons

- Default → #00C2A8
- Hover → #00F5D4
- Disabled → #008F7A

Cards

- Background → #111827
- Border → #1F2937

Alerts

- Use status background + border + icon
 - Never plain text alerts
-

📊 8. Usage Hierarchy (MOST IMPORTANT)

If your dev ignores this, everything breaks:

- 80% → dark neutrals (background + surface)
- 15% → text
- 5% → accent color
